

The Claims

What is claimed:

- 5 1. An improved condom accessory that covers the entire or a portion of the penis, that maybe used with or without a condom, comprising a mixture of prepolymer, spermicide, water, and /or medication, with said condom accessory having strengthening mesh material embedded in the body, with various methods of attachments to prevent dislodging, and with said condom
- 10 accessory having a safety string as a method of retrieval, in case of dislodging into the female vagina, also having a safety strap that hold the condom accessory in place.
2. The improved condom accessory of claim 1, wherein the penis extension is manufactured from solid, absorbent, liquid, or dry material either
- 15 singularly or in combination with such materials as sponge (soft or hard), cloth, cotton, synthetic cloth, plastic composites, prepolymer, spermicide, rubber, latex, polyurethane, epidermal tissue, endoderm tissue, smooth muscle tissue, skin, and/or various medication, that may mimic a male penis, or various shapes (e.g., round, bulbous, oblong, oval, and tube shaped).
- 20 3. The improved condom accessory of claim 1, wherein the penis

extension is porous and approximately 0.1 - 8 inches in length, width, or diameter.

4. The improved condom accessory of claim 1, wherein the penis extension is non-porous and approximately 0.1 - 8 inches in length, width, or
5 diameter.

5. The improved condom accessory of claim 1, whereas the spermi-
cide is water activated.

6. The improved condom accessory of claim 1, whereas the spermi-
cide is chemically activated.

10 7. The improved condom accessory of claim 1, whereas the spermi-
cide maybe time released.

8. The improved condom accessory of claim 1, whereas the medica-
tion is water activated.

15 9. The improved condom accessory of claim 1, whereas the medica-
tion is chemically activated.

10. The improved condom accessory of claim 1, whereas the medica-
tion maybe time released.

11. The improved condom accessory of claim 1, wherein the penis ex-
tension absorbs sperm.

20 12. The improved condom accessory of claim 1, wherein the penis ex-

tension traps sperm.

13. The improved condom accessory of claim 1, wherein the penis extension eliminate sperm.

14. The improved condom accessory of claim 1, wherein the penis extension is bonded to the condom by glue.

15. The improved condom accessory of claim 1, wherein the penis extension is bonded to the condom by adhesive.

16. The improved condom accessory of claim 1, wherein the penis extension maybe bonded by means of glue to the male penis.

17. The improved condom accessory of claim 1, wherein the penis extension maybe bonded by means of adhesive to the male penis.

18. The improved condom accessory of claim 1, wherein the penis extension maybe inner-lined with a perforated or non-perforated thin smooth-sheath all or in part.

19. The improved condom accessory of claim 18, whereas the thin smooth-sheath maybe manufactured all or in part with latex, polyurethane, plastic, plastic composites, prepolymer, rubber, or material used to manufacture a synthetic sponge.

20. The improved condom accessory of claim 1, wherein the penis extension may include a incision $\frac{3}{4}$ the length, along the body for application

purpose.

21. The improved condom accessory of claim 1, wherein the penis extension maybe rolled onto itself for packaging purpose.

5 22. The improved condom accessory of claim 1, whereas the penis extension maybe flat in shape.

23. The improved condom accessory of claim 22, wherein the flat penis extension may have a flexible body with a angular edge, allowing easy, faster application time.

10 24. The improved condom accessory of claim 1, wherein the penis extension has a opening through and through.

25. The improved condom accessory of claim 1, whereas the penis extension maybe positioned throughout the inner lined wall of the traditional condom.

15 26. The improved condom accessory of claim 1, whereas the penis extension maybe positioned throughout the outer lined walls of the traditional condom.

27. The improved condom accessory of claim 1, wherein the penis extension may incorporate self attaching adhesive tape that may have adhesive on one or more side.

20 28. The improved condom accessory of claim 27, wherein the adhesive

may consist of glue or like means.

29. The improved condom accessory of claim 28, wherein the adhesive is bactericidal.

5 30. The improved condom accessory of claim 28, wherein the adhesive is mycocidal.

31. The improved condom accessory of claim 28, wherein the adhesive is spermicidal.

32. The improved condom accessory of claim 28, wherein the adhesive is viralcidal.

10 33. The improved condom accessory of claim 28, wherein the adhesive is hypoallergenic.

34. The improved condom accessory of claim 28, manufactured from totally organic substances.

15 35. The improved condom accessory of claim 28, wherein the adhesive is manufactured from a medical grade material.

36. The improved condom accessory of claim 1, wherein the penis extension may incorporate a safety band.

37. The improved condom accessory of claim 1, wherein the penis extension may include a placement indentation.

20 38. The improved condom accessory of claim 37, wherein the safety

band is placed in the placement indentation.

39. The improved condom accessory of claim 37, wherein the placement indentation maybe mirrored throughout the penis extension.

40. The improved condom accessory of claim 37, wherein the placement indentation is embedded throughout the penis extension.

41. The improved condom accessory of claim 1, wherein the penis extension may incorporate a safety string with a pull tab.

42. The improved condom accessory of claim 41, wherein the safety string is bonded to the mixture of prepolymer during the manufacturing process.

43. The improved condom accessory of claim 41, wherein the safety string is bonded to the penis extension by glue.

44. The improved condom accessory of claim 41, wherein the safety string is bonded to the penis extension by adhesive.

45. The improved condom accessory of claim 1, wherein the penis extension may incorporate a over-flow canal.

46. The improved condom accessory of claim 1, wherein the penis extension may incorporate mesh.

47. The improved condom accessory of claim 1, wherein the penis extension may incorporate a safety strap.
